Tao Zamorano

taozamorano@gmail.com | +44 7888 408175 | London, UK | https://tao.cl

Full-stack web developer with over 9 years of experience building scalable, accessible, and performant web applications. Skilled in modern JavaScript frameworks (React, Vue), CMS development, and DevOps practices. Proven ability to collaborate across distributed teams and adapt quickly to emerging AI technologies.

EXPERIENCE

2024: React Developer at M10c, UK

- Developed high-quality web applications using React and Next.js in a fast-paced, performance-driven setting.
- Translated designs and requirements into functional UIs with a strong focus on user experience and responsiveness.
- Leveraged TypeScript's static typing to reduce runtime errors and improve development efficiency.
- Used Git and GitHub workflows for code reviews and team collaboration.

2020 - 2024: Developer at Archetype, UK

- Delivered interactive media, infographics, and e-learning components using Vue.js (Nuxt) and React (Next).
- Integrated REST APIs into Laravel-based apps and developed automated testing using Playwright.
- Built custom WordPress websites with editable fields using Advanced Custom Fields, Bedrock, and Sage.
- Coordinated with distributed teams using Slack and Zoom across multiple time zones.

2019 - 2020: Freelance Web Developer at Tao.cl, Chile

- Designed and implemented WordPress sites with WooCommerce for small businesses.
- Created bespoke marketing websites and front-end interactivity using Vue.js.

2018 - 2020: Web and IoT Developer at DataFlow, Chile

- Built a high-visual-impact corporate website and a mobile app using the Ionic framework.
- Developed IoT monitoring systems with NodeRED, MQTT, WebSockets, and Time Series databases.

2016 - 2018: Full Stack Developer at Bindex, Chile

- Maintained and developed a PHP web app using the CodeIgniter MVC framework.
- Developed web scraping systems and business logic with MySQL.
- Managed Linux servers and ensured service availability.

SKILLS

Languages & Frameworks: JavaScript, PHP, React, Vue, Laravel, WordPress
